

## End of CIA Payments

Washington, Dec. 29 (UPI) — Secret financial support of the overseas activities of private groups will end as scheduled Dec. 31, the State Department said today.

Department spokesman Robert J. McCloskey told newsmen that the cutoff date recommended by a Presidential committee which looked into payments by the Central Intelligence Agency to such groups as the National Student Association has been met.

McCloskey would not identify what organizations would be affected. But, he said, they represented only a small part of the 1,000 U.S. groups which conduct work overseas.
